Welcome to the Department of Psychology. Our department was formed in 2018, and has since established itself as a leader in teaching, research, and innovation. Psychological science is a rich discipline that lies at the crossroads of biology and society. Psychological science is the building blocks of human behavior and necessary for addressing contemporary societal issues and problems. I am honored to lead such an outstanding faculty.

I invite you to peruse our website to learn about our department and to discover the richness of what psychology has to offer. I am confident that you will find our faculty and discipline as fascinating as I do.
